MEMO TO: All Owner Operators

FROM: Jim Marshall, Sr. Director – Insurance & Safety
Tom Dunn, Owner Operator Risk Manager
Paul Sweeney, Chairman NOIT

RE: Slip and Fall Solutions (NO-Slip Treatment)

Slip and Fall Solutions, as an approved supplier to the McDonald's system, has been assisting McDonald's restaurants nationwide to reduce slip and fall accidents through the application of their NO-Slip Treatment product. Over the past several years we have seen our slip and fall frequency drop. We believe Slip and Fall Solutions was a factor in the reduction of frequency of slips and falls.

The NO-Slip Treatment uses a technique to bond microscopic particles onto tile surfaces to replace worn down irregularities and increase the slip resistance. NO-Slip Treatment is a non-corrosive, easily self-applied product that has a three year warranty. It is safe, inexpensive and does not require any change to the McDonald's floor cleaning procedures. Slip and Fall Solutions have been utilized by many operations in the McDonald's system with great success.

We highly recommend the use of the NO-Slip product as another tool to reduce slip and fall accidents in our restaurants.

For order information, contact Slip and Fall Solutions at 416-256-4335 or info@slipandfallsolutions.com.
