Did You Know?

- Fingers are the #1 injured body parts.
- The National Safety Council refers to incidents of hand injuries, finger pinches and amputations sustained from a door as an "unintentional injury" rather than an "accident".
- The term "accident" would imply unavoidable and unexpected; but in fact, most door hinge injuries are preventable, Cover the Gap!
- "COVER the GAP" to prevent the pain and disfigurement caused by these injuries. It's Simple Safety with Preventive & Protective Safety Door Guards by *Finger Shield™*.
